What could I say that hasn't already
been said many times before. You've got
all that it will take to have a happy
marriage. You don't know what
a pleasure it's been for me to have
you in my classes - as a teacher.

Yours with love.

I'm sure you that you must
"quit school"!! You must have
been so busy without me and
posting every letter. I was taking
your week-end. I've spent a very
a night thinking back and something
you said last night and have to
I'm going to miss you very much.

Back and I'm afraid thinking about
the bill that I'm going to be
expecting a visit at a letter from
you must be the time when I
go to Chapel Hill.

Stay as long as you like.

PROPHECY

I, Bobby Vancannon, have been chosen by my classmates to write the prophecy of our class. Before I undertake this task, I would like to say a few words. I feel that with the world in such a crisis as it is in today, with the forces of communism, atheism, and other enemies of democracy creeping in on every hand, it would be very difficult to predict the future. All we can do is hope and have faith in God, and then if our faith is great enough, perhaps the things we hope for will come true.

When our "Dear ole class of '51" departed from the halls of knowledge of Seagrove, we decided that we should have a class reunion every ten years. Due to circumstances beyond our control we were not able to have a reunion until '71, and at this reunion we really found out some pleasing and amazing things.

Edna Arrington is really going places now. Each night over T. V. she keeps thousands of people in an uproar with her new "Beulah" show.

We all remember what a swell job Jean Auman did in the drawing of the division pages of our annual; now she has succeeded Al Capp and is doing a fine job with the "Li'l Abner" comic strip. Jean is really a scream when Sadie Hawkins Day comes.

Merlene Blake, who joined the WAC to help Uncle Sam, is now doing a very great service to her country as a secret Military Intelligence Agent in Russia.

I'm sure we all remember Lucas Industries in Asheboro. Now the name has been changed to "Bowman Industries," and Cecil lives in the stately mansion east of Asheboro.

We all remember what a safe, careful driver Billy Brown was and how he used to get his bus in on time. Now Billy is a race driver, and he always brings that racer in way ahead of time. Incidentally Billy is international champion of the world and has set a new record of 500 miles in four hours.

I never once thought that Peggy Bullins would give up sports; she enjoyed them so much. Now she is the best Sportswriter in America. Her exciting description of ball games and other sports thrill millions each day.

Betty Jean Cagle was always a nice and friendly girl. She always had a charming and pleasing disposition. Now these fine traits are very handy, because, being wife of the Governor of North Carolina, she has to meet a lot of people.

We all know what a dependable person "Gene" Bumgarner was, and apparently the

president of the United States knows it too, because "Gene" is now Commander-in-Chief of all Marine Forces in the South Pacific.

Some people like to stay at home among their own friends and work. Stella Caviness is one of these. After leaving Seagrove she went to Woman's College. Now she is Principal of Brower School and a very good one too.

If any of you girls want to be made any prettier, I can tell you where to go. Go to Why Not to Lena Mae Kennedy's Beauty Shop. Lena is certainly doing a fine job of keeping all the Seagrove and Why Not women beautiful.

Say, can you boys jitterbug? If you can't, you should go to Helen Lewallen's Jitterbug School. Helen got most of her practice during her good ole school days.

Mary Lucas did a fine job as the business manager of our annual. Now she is doing an even greater job of managing the business office of the Seagrove Times. (Compiled and Edited in the Seagrove News Room.)

Do you know who the Home Economics teacher at Seagrove is? You guessed it—Martha Luck. Martha is a very good Home Ec. teacher. Her husband says that she is the best cook in the world.

We are all very proud of Kathleen Maness. Kathleen is a missionary in far off Siam. We forgive you for not getting to the reunion, Kathleen, because we realize that Siam is far away.

The nursing profession is a very good profession to be in if you can attain it. Ann Moore did, and now she is head nurse at the Seagrove Memorial Hospital, which is located just across the road from the Seagrove Lumber Plant.

It seems that Betty Pittillo has been associated with High Point College ever since she finished high school. She attended the college four years. They liked her so much that they gave her a job as head of the English Department, and now she is President of the College.

Dempsey, better known to the sports-minded public as "Foxey" Presnell, is doing fine in professional football. Dempsey broke all of "Choo-Choo" Justice's records while he was at Duke University. Now he is getting rich and broken up at the same time playing professional football.

From typing and shorthand in high school to typing and shorthand in college. That was the course that Joan Richardson followed. Now it is really paying off because Joan is medical secretary at Seagrove Memorial Hospital.

After departing from Seagrove High School, Paul Shelton went to South Carolina to help

PROPHECY

his brother in the brick mason business. Paul liked the brick mason business and South Carolina, so now he is the owner of one of the largest contracting companies there.

After spending a few years in the Navy, Sherrill Strider decided that he would go to college under the G. I. Bill of Rights. Sherrill majored in literature, and now he is professor of literature at Seagrove High School.

Vern Ann Stuart is the present-day Amelia Earheart. Her husband, Charlie Ray Joyce, who is a pilot in the Air Force, taught her to fly and now she is flying all over the world and writing about her travels.

Eldon Tucker is another man in the professional sports world. After his flashy basketball playing for State College, several teams tried to buy Eldon but, being patriotic, Eldon came home to play with the Seagrove All Stars, which is now the number one professional team in the nation.

Perhaps some of you have not met the new home demonstration agent. Her name is Hazel Cole. After completing a course at Chapel Hill, Hazel was given the job of Home Demonstration Agent of Randolph County.

I thought that in our class there should be some air-minded people; Mildred Cox is one of them. She is chief hostess for Pan-American Airlines. We are really proud of you, Mildred, because we realize that it took a lot of work to attain this job.

If any of you get into any trouble, I would advise you to see Mr. Jack Cox. Noted authorities say that he is the best civil lawyer in the business today. They also tell me that he has a political pull and may well attain a seat in Congress next term.

Sidney Craven certainly went places in this world. He is now Chief Engineer in the Refrigeration Department of General Electric. That day you taught chemistry did you a lot of good, didn't it, Sid?

Another guy that is still in sports, but in a different way, is Eugene Whatley. After serving as coach at Seagrove for a few years, Eugene went to State College as head coach and this year Whatley's Wolfpack is on top.

Grayfawn Cranford, who was always very quiet, isn't so quiet any more. She is touring the country now singing famous songs that she composed. She was always good at writing songs.

We should all be proud that our class has a fine concert pianist. Miss "Lib" Delk, who is now the most famous concert pianist in the world, is in England playing for the King and

Queen on their Golden Wedding Anniversary.

Sue Gatlin was always good when it came to writing news for our school paper. Now she is doing a splendid job covering the world for *New York Times*. Sue told me that in her journeys she has been around the world twice and to the South Pole once. She certainly gets around.

A man that is doing a fine job for the Department of Agriculture is Boyd Hayes. He is head of the experiment station at Raleigh. Boyd's chief experiment now is the perfection of a new breed of chickens which will grow fatter on less feed, preventing the problems of last minute stuffing.

Sam Haywood did a good job as snapshot editor of our annual. Well, news travels fast and Warner Pathe News soon heard about Sam. Now they pay him vast sums to travel all over the world and snap the news as it happens.

In a beautiful fifteen-room mansion in Pisgah live Mr. and Mrs. Richard Graves. Mrs. Graves is the former Carol Hurley. Although Carol is pretty busy with her household duties, she finds time to teach school at dear ole' Seagrove.

Somehow a movie talent scout finally got to Seagrove. Well, he took one glance at Patsy Joyce and said, "My search is ended. I'm taking her back to Hollywood." (Incidentally Patsy was chosen the best looking girl of our class.) Now she is co-starring with James Stewart in "Blue Christmas."

When she finished high school, Avis Williams married and settled down; I mean settled down in one sense. In her spare time she is a lady detective for the F. B. I.

"Ladies and Gentlemen: As I look upon these smiling faces"—that is part of the speech that won for Talmadge Williams a seat in the 121st Congress. Talmadge has really been going places in politics. It is rumored that he may be G. O. P.'s candidate for President in 1974.

Bobby Vonnannon
Prophet

P. S. We thought you'd like to know what happened to Bobby Vonnannon, our prophet. Bobby studied medicine at Wake Forest and interned at Walter Reed Memorial Hospital. However Bobby always did have his heart set on founding a hospital at Seagrove so he came home to do just this. He is now chief surgeon at the Seagrove Memorial Hospital.

Mildred!

It has been nice knowing you these years, and I will never forget the good old times we have had. Remember the time you went home with me from school, and we rode on a certain bus. It was snowing and we had a ball game that night, and a certain person came after us to go to the ball game but we had already gone. And remember how we came back. Mildred I will never forget the good times we have had in basket ball, and especially when we played star that night when you were pulling off your tennis shoes. Also when we went to Miss Hoppers wedding. I sure did like our hats. Didn't you? **PINEHURST TEXTILES, Inc.** a true friend to me and I will never forget you, wishing all the happiness in the world to a very sweet girl. *Love always Nell.*

Thanks so much for
all the nice things

was so far from you
the two years in the
home economics.

Keep on being the
same. I'll be glad

to talk with you.

Sincerely,
